**NEC DISPLAY SOLUTIONS ADDS 27-INCH ENTERPRISE MODEL
TO UHD PORTFOLIO**

***4K UHD Resolution, sRGB Panel and SpectraView Compatibility
Key Benefits for Business, CAD/CAM, Command & Control, and Entry-level
Graphics***

CHICAGO – June 16, 2015 – [NEC Display Solutions of America](#), a leading provider of commercial LCD display and projector solutions, announced today the MultiSync® EA275UHD display, the latest addition to its 4K Ultra High-Definition product portfolio.

The monitor's UHD resolution (four times full HD), business-class features and factory calibration are ideal for high-end corporate users, CAD/CAM engineers, Command & Control personnel and entry-level graphics users as well as anyone desiring more desktop space. The 27-inch display has flexible input configurations, allowing one or two inputs on screen simultaneously.

The EA275UHD display includes a multitude of the latest connectivity options, including DisplayPort 1.2, HDMI 2.0, DVI-D and a USB 3.0 hub, and includes a UHD upscaling feature to improve any non-UHD content. It also is compatible with SpectraViewTM calibration software for accurate color reproduction. At 163 DPI (dots per inch), the display's readability is ideal for corporate applications.

"The display's high-resolution and usable DPI are great for everyone from Excel power users to people who need to display multiple inputs," said Art Marshall, Product Manager

of Professional and Medical Displays at NEC Display Solutions. “It builds upon NEC Display’s portfolio of 4K UHD products, not only in desktops, but also in large-screen displays and projectors. With NEC-unique features like ControlSync and a Human Sensor, this display fits well in any corporate environment.”

Designed to enhance work performance, this widescreen model features a 10-bit AH-IPS panel with great viewing from any angle, touch-sensitive on-screen menu controls, and complete ergonomic adjustability to fit any workspace. The EA275UHD also offers smart sensing technology, which automatically detects work conditions to determine the proper display brightness with ambient light and human sensors.

Other benefits include:

- 350cd/m² brightness
- 3840 x 2160 4K Ultra-HD resolution
- 15,000:1 dynamic contrast ratio (1000:1 typical)
- Ergonomic adjustable stand with 130mm height-adjust, tilt, swivel and pivot
- 6-ms response time
- Integrated 3-port powered USB 3.0 hub (1 up/3 down)
- Integrated speakers (1W x 2) and headphone jack
- ControlSync™ for multi-screen setups
- Human Sensor to reduce power consumption when the user is not present
- ECO Mode™, carbon footprint meter and cost meter
- ENERGY STAR® 6.0, TCO 6.0 and TCO Edge 1.2 compliant

The MultiSync [EA275UHD](#) display ships with a 3-year limited parts and labor warranty, and will be available in June 2015 at a minimum advertised price of \$799. The monitor also comes with a set-up manual, DisplayPort, power, USB 3.0 and ControlSync cables. An [EA275UHD-BK-SV](#) bundle also will be available in June 2015 at a minimum advertised price of \$949, which includes a Spyder calibration sensor and the [SpectraView_{ii}](#) software with the display.

The display will be demonstrated at [InfoComm15](#) (NEC Display Booth No. 1900) on June 17-19, 2015, at the Orange County Convention Center in Orlando, Fla.
