

# NEC - Supporting Healthcare's Most Pressing Needs

Current conditions require solutions that can be used in hospital facilities, temporary clinics and remote locations, and NEC has the technology solutions that can support healthcare workers where and when they need it. Our displays, collaboration solutions and digital signage can support hospitals in today's challenging environments.

## Telehealth

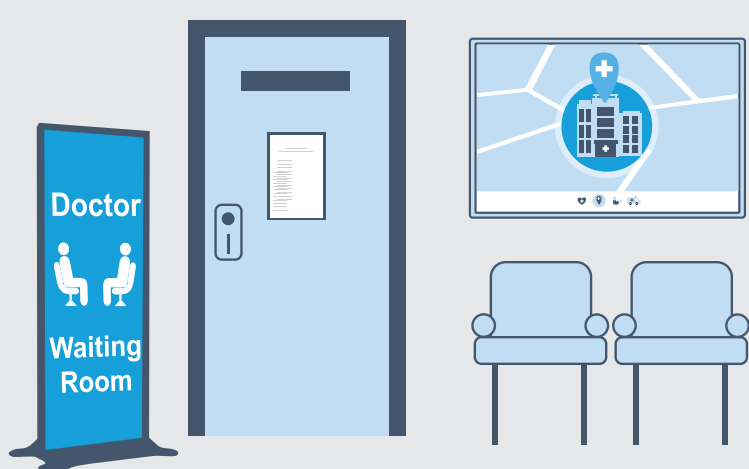

- Live video conferencing
- Doctor to doctor collaboration
- Remote patient monitoring

[Desktops](#) | [Collaboration](#)

## Capacity Management

- Reworking hospital spaces
- Quick set up clinics
- Remote testing sites

[Collaboration](#) | [Large Format Displays](#)

## Communication

- Patient and staff instructions
- Managing influx of traffic
- dvLED signage for mass communications
