

A GAME-CHANGING INSTALLATION PROJECTOR

Advanced features at an affordable cost

Designed to be the perfect solution for corporate conference rooms and higher education classrooms, NEC's P605UL laser projector combines professional-level features with a budget-conscious price.

Make distraction-free presentations

WHISPER QUIET

NEC's proprietary **Whisper Quiet** technology features a patented sealed cooling engine that almost eliminates fan noise.

Engage audiences with higher brightness and brilliant colors

6000
LUMENS **4K UHD**
READY

LCD technology and WUXGA resolution provides more brilliant and accurate color in demanding applications. With high performance video processing and scaling, the P605UL supports 4K/30 content.

Enjoy maintenance-free operation

20,000 hours
expected lifetime

sealed optical engine

filter-free operation

the **perfect** maintenance-free projection **solution**

Use in conference rooms and classrooms

The P605UL's near-silent operation – along with its high brightness and vivid color rendition – is ideal for corporate conference rooms and higher education classrooms. Even better, its long laser life and filter-free, no-maintenance design lower the total cost of ownership.
