NEC DISPLAY GIVES INSTRUCTORS, STUDENTS EASY WAYS TO COLLABORATE WITH INTERACTIVE WHITEBOARD BUNDLES

Large-Screen E Series Displays with Intel NUC Mini Computers Empower Classrooms

CHICAGO – Sept. 19, 2017 – NEC Display Solutions of America announced today two new bundles for K-12 and higher education customers that combine NEC Display’s E Series large format displays with the power of Intel’s NUC mini computer to make collaboration in the classroom easier than ever.

Featuring NEC E651-T displays with 10-point integrated IR touch, an Intel NUC minicomputer equipped with a 256GB solid-state hard drive, 4GB of RAM, and an Intel Celeron processor running Windows 10 IoT, the bundles offer the flexibility and power to run any compatible collaboration software. The bundles will enable instructors and students to easily present, share and annotate content in an engaging way that maximizes classroom learning.

“At the heart of our market strategy is combining existing technology and using it to make educational content and collaboration more accessible,” said Chris Feldman, NEC Display product manager. “We want to ensure that schools have value driven solutions to enable collaboration in the classroom. Our new interactive whiteboard bundles offer the flexibility to run any compatible software, including our DisplayNote collaboration suite.”
The E651-SMS bundle includes an NEC Display E Series 65” touch display, Intel NUC computer, an Isobar surge protector and a mobile display cart that can easily move as needed with built-in space to store A/V equipment. The E651-MSMS adds a motorized cart option that makes it easy to raise and lower the screen, which is especially useful in early childhood education settings when the display needs to be at children’s eye level. Both bundles include a flexible mount design so they can fit into any classroom environment.

The interactive whiteboard bundles can be used with any Windows 10 IoT-compatible collaboration software, including DisplayNote which is available separately. The E651-SMS is available now for $6,949 and the E651-MSMS is available for $7,449.
