**NEC MULTISYNC EA261WM DISPLAY AWARDED iF PRODUCT DESIGN AWARD**

*International Forum Design Recognizes Products  
“Dedicated to High-Quality Design”*

**CHICAGO – March 9, 2009** – [NEC Display Solutions of America](#), a leading stand-alone provider of commercial LCD displays and projectors, announced today it has been named a 2009 iF Product Design Award winner for its 26-inch NEC [MultiSync® EA261WM](#) LCD display. [International Forum Design](#) annually evaluates products in 16 categories based on design quality, environmental compatibility, brand value and innovativeness, among others.

“We’re thrilled the MultiSync EA261WM display has been recognized internationally for its widescreen design, environmentally friendly ECO Mode™ and carbon footprint meter, along with its new cabinet design featuring built-in controls,” said Lynn Gu, Product Manager at NEC Display Solutions. “We’re committed to constantly improving display design and usability, and this award further proves our commitment to the enterprise desktop display market.”

The display, introduced last summer, is ideal for corporate, education and government environments. Its extensive feature set, innovative technologies and design are ideal for professionals in IT, financial, gaming, CAD/CAM and control center areas. The widescreen design capitalizes on the growing trend of wide-format applications and

helps users be more productive. Additionally, the display's certified EPEAT Gold compliance ensures reduced levels of environmental hazards and emissions of greenhouse gases.
