## NEC DISPLAY TOUCH SCREEN OVERLAYS RECEIVE TAA-COMPLIANCE

*Touch screen overlays provided by TSItouch; approved for U.S. government use*

**CHICAGO – Nov. 29, 2016** – [NEC Display Solutions of America](#), a leading provider of commercial LCD display and projector solutions, announced today that touch screen overlays for its large format displays meet Trade Agreements Act (TAA) guidelines. The TAA requires U.S. government and affiliated entities with federal contacts to purchase end products made or substantially transformed within the United States or other TAA-designated countries.

“We’re providing value to our customers by offering a touch screen accessory that meets the Trade Agreements Act,” said Chris Feldman, product manager, NEC Display.

“Having a unique certification like this helps give NEC a market differentiator with a widely used technology, and since the touch overlays already carry the TAA-compliant label it makes it easier to specify equipment for customers that require this compliance for their projects.”

TAA guidelines ensure that products used by the U.S. government support fair and open international trade. The touch screen overlays are provided by [TSItouch](#), a Pennsylvania-based, veteran-owned small business.

“We are now offering touch screen overlay solutions that meet the requirements of the Trade Agreements Act (TAA),” said Justin Fuss, creative director, TSItouch. “The vast

majority of our touch screen overlays are now approved to be acquired by the United States for Government use.”

The NEC Display TAA-compliant touch screen overlays include:

- [OL-E705](#)
- [OL-V323-2](#)
- [OL-V423](#)
- [OL-V463](#)
- [OL-V652](#)
- [OL-V552](#)
- [OL-V801](#)
