**NEC DISPLAY UNVEILS THREE ENTRY-LEVEL DESKTOP MONITORS,
EXPANDING ECO-FRIENDLY BENEFITS IN COMPLIANCE WITH ENERGY
STAR® REQUIREMENTS**

Affordably designed for small-to-medium business, these updates now have more advanced features providing even greater performance

CHICAGO – August 1, 2017 — NEC Display Solutions of America, Inc., a leading provider of commercial LCD displays and projectors, today announced the availability of AccuSync® AS224Wmi, MultiSync® E233Wmi and MultiSync E203W desktop monitors.

“The AS224Wmi, E233Wmi and E203W update three of our popular desktop models to meet new ENERGY STAR® requirements while advancing our firm commitment to the environment,” said Art Marshall, Senior Product Manager for Desktop Displays at NEC Display Solutions. “New advanced features have also been added to each model, delivering greater performance for added value.”

The 22" NEC Display AccuSync AS224Wmi is a widescreen LED backlit LCD desktop monitor that is ideal for small-to-medium business environments, offering a large workspace and low blue light and flicker-free operation improving the visual experience and reducing eyestrain. Its IPS panel offers improved vertical and horizontal viewing angles of 178 degrees. Eco-friendly features include ECO Mode™ to extend the life of the display, LED backlights for less energy consumption than its predecessors, and Intelligent Power Management. The monitor also provides these key benefits:

- Expanded working area, enabling viewing multiple application windows
- DisplayPort, VGA and DVI inputs are compatible with any computer

- Touch-integration ready

The 23" MultiSync E233WMI is a widescreen desktop monitor that combines IPS screen technology with ergonomic design, making it a perfect fit for enterprise environments. This high-contrast display offers low blue light and flicker-free operation improving the visual experience and reducing eyestrain. It provides improved vertical and horizontal viewing angles of 178 degrees. It also provides these key benefits:

- 4-way ergonomic design fits any workspace
- DisplayPort, VGA and DVI inputs are compatible with any computer
- Dynamic Visual Mode enhances video and images with real-time optimization of brightness, color and contrast

The 20" MultiSync E203W widescreen desktop monitor offers an energy-saving panel with low blue light and flicker-free operation. This entry-level monitor also provides these key benefits:

- Height-adjust, pivot, tilt and swivel capabilities add flexibility and comfort to viewing preferences
- DisplayPort, VGA and DVI inputs are compatible with any computer
- ECO Mode™ allowing for manual adjustment of the display's brightness, saving power and reducing energy costs

The AS224WMI and E233WMI monitors are now available at a minimum advertised price of \$179 and \$229, respectively. The E203W monitor will be available later this month at a minimum advertised price of \$179. For additional information and specs, please [visit NEC Display Solutions](#).
