**NEC DISPLAY SOLUTIONS LAUNCHES FULL HIGH-DEFINITION V461 FOR
COST-CONSCIOUS DIGITAL SIGNAGE SOLUTIONS**

***46-Inch Addition to V Series Provides Affordable Commercial-Grade Quality
for Corporate Users***

CHICAGO – June 9, 2010 – [NEC Display Solutions of America](#), a leading provider of [commercial LCD](#) display and [projector](#) solutions, announced a new model to its V Series, the 46-inch V461. Ideal for retail and restaurant markets, as well as indoor venues, training facilities and corporate boardrooms, this series allows customers the flexibility required for a basic digital signage implementation.

The V Series can be seen at InfoComm 2010 (NEC Display Solutions Booth No. N903) on June 9-11, 2010 at the Las Vegas Convention Center in Las Vegas, Nev.

The full, 1080p, high-definition brilliance of the V461 makes it valuable for entry-level users. The stunning visual content can be displayed through a variety of comprehensive inputs, including HDMI, DVI-D and 5 BNC connections. Advanced cooling fan-based technology in the V461 eliminates the possibility of overheating, while its ability to be sheltered by touch or protective glass promotes interaction with passersby. Operators are able to monitor and control the V461 over an Ethernet connection and receive email notifications in the event the display encounters an error.

“When a customer needs extensive control over their digital signage while remaining environmentally-friendly and cost-conscious, NEC’s V Series, with its valuable features

and comprehensive input panels, is the ideal choice,” said Luke Bruschuk, Product Manager for NEC Display Solutions. “The 46-inch V461 promotes extended use that will drive foot traffic in numerous applications, including retail stores, restaurants and corporate facilities. Full of compelling features, like RS-232 loop-through and ENERGY STAR® 5.0 compliance, this large-format LCD display can fulfill the needs of any entry-level project. ”

Below is a partial list of features included in the V461:

- 1920 x 1080 full high-definition resolution
- Brightness up to 450 cd/m²
- 3000:1 contrast ratio
- Public-display-grade panel, which offers additional protection against image retention
- Advanced cooling fan-based technology, which provides added security with overheating protection
- Landscape or portrait orientation
- Comprehensive input panel, including HDMI, DVI-D, 5 BNC (RGBHV, DVD/HD or composite video), 15-pin D-sub in/out, S-Video and composite video in/out
- Video walls of up to 25 displays in a 5x5 configuration using TileMatrix™, an improvement from the 4x4 capability in the MultiSync LCD4615
- Picture in Picture (PIP) modes, along with Picture On Picture (POP)
- Improved user color setting, which allows customer to adjust the color at a 6-axis level
- Built-in, round-the-clock scheduler, which allows for advanced scheduling of content and powering of the display, saving time and energy costs
- ENERGY STAR 5.0 compliance
- Windows® Vista-certified
- Touch- and protective glass-ready
- Optional accessories for the V461 include stand, speaker and wall mount

The V461 will be available for June 2010 shipment at an estimated street price of \$1,199.00. The display ships with a 3-year parts and labor warranty, including the backlight.
